Quarterly Report on

Data Management I

July - September 2016
In Quarterly 6, the team has completed the following tasks:

- **Transcription of the interviews** conducted between February-May 2016. Each partner has started the transcription of their correspondent 40 interviews and 8 workshops.

- **Implementation of the methodological protocol to code with NVivo.** The Coordination Team in Barcelona worked on the adjustment of the categories (based in the conclusions of the first Transliteracy Workshop held from June 30th to July 1st). Also, Barcelona Team has started to code the interview transcriptions with this qualitative data analysis software.

---

In the screenshot provided, there is an NVivo interface with a transcript and notes. The transcript contains a conversation snippet discussing the distance and personal defense, mentioning the need for quick decisions and the difficulty of moving in large areas due to the density of buildings. The notes are related to the interviews and codes used in the NVivo software.
